Summary

A recent graduate with a solid foundation in computer science, I bring proficiency in Java, strong object-oriented programming skills, and a deep understanding of data structures and algorithms. Additionally, I have practical expertise in front-end web development, including HTML, CSS, and now leveraging React hooks and JavaScript, allowing me to create visually appealing and user-friendly interfaces.

Skills

- Java(OOPS)
- DSA
- HTML5
- CSS3
- Bootstrap
- Javascript
- React JS
- redux
- Firebase(Phone/Email/Oauth)
